City of Palmdale to Complete Drainage Improvement

PALMDALE — The City of Palmdale's Public Works crew will complete a drainage improvement by installing asphalt on the shoulder of 65th West between Ave. M and Ave. M-4 beginning on Tuesday, Oct. 10.

Both directions of 65th West between Ave. M and approximately Ave. M-4 will be closed at 8 am. The project will require the road to be closed intermittently to complete. The road is expected to be completely re-opened by 2 pm.

The hours of this closure have been planned around peak commuter and local school times.

The project is funded through the City's Street Maintenance budget.

For more information, please call Public Works at 661/267-5300.
