

# We're bringing recreational fun to your local park for Parks & Recreation Month!

Join us for music, sports ball equipment rentals, and exciting socially distanced activities to keep you entertained on long summer days.

Our fun, energetic, positive park staff will make sure everyone is welcomed and connected to the activities offered. This year's theme for Parks & Recreation Month is "Our Park and Recreation Story" — bring your family to play and share your story about how parks and recreation have helped to create strong, more vibrant and resilient communities! We encourage families to share their stories on social media using #OurParkAndRecStory.
