

CITY OF PALMDALE

Approved Plant and Tree list

1st column = Scientific Name											
2nd Column = Not tested - has been recommended to try based upon climatic conditions in our area											
3rd Column = common name											
4th Column = X indicates approved for Residential Landscape applications											
5th Column = X indicates approved for Commercial, Institutional, and Industrial Landscape											
6th Column = X indicates approved to plant in City public right of way - LMD's and City Projects											
7th Column = X indicates approved for City Street Tree Application											
8th Column = Plant type designation; D - Deciduous, E - Evergreen, C - conifer H - Herbaceous											
9th Column = Number indicates width or coverage of plant (size to be drawn at & for water use calcs)											
10th Column - Water use indicator (1 = high water use, 2 = Average, 3 = low water use 4= very low water use)											
11th column - Neal Weisenbergers comments											

		<p>Considered Risky by Neal Weisenberger, the 'Desert Gardener' - see his comments adjacent to the water use column - these plants will most likely be removed on the next review of the list in December 2008 unless the committee receives information that changes our minds.</p>
