Courson Connection

20 years in the making
The Housing Division began working on the purchase of the three-block area in 1999 to bring to life Courson Connection. Substandard Housing was demolished to allow for the development of brand-new affordable housing to serve low-income families in Palmdale. 59 families were relocated.

This area is now home to over 314 families and the renovated Courson Pool.
Construction of Whispering Palms 2008
Construction of Whispering Palms
Construction of Palo Verde Terrace
2009
Construction of Legacy Commons for Active Seniors
